### Repairing Homes

The team continued work on Sharon's mobile home in Honey Brook. They completed the exterior trim on the new windows, continued gutter work and began replacing all the broken skirting. On the interior, they completed the new kitchen floor and made subfloor repairs before installing a new top floor inside the exterior door.

### Restoring Hope

Ron and his wife Nancy have had fruitful visits with Sharon. They enjoy some of Nancy's baking and fun conversation. Each visit they would spend deep in conversation over a particular Bible passage, digging deeper and learning. Seeds are being planted and Ron is praying that God will open Sharon's eyes to the truth that it is only through Jesus that she can be saved. Sharon seems encouraged and looks forward to their visits.
